0 minutes 3 seconds0:03

Fusa, Olga 0 minutes 3 seconds

regarding tribunals. So I thought the best way is to, you know, to present our project team, what we're trying to do, and as well to meet with the first prioritised tribunal on the list, which is, or the first jurisdiction is social security and child support.

Fusa, Olga 0 minutes 22 seconds

So, I don't know if you heard anything about about a project to to collect this data, Sheila and Lynsey. Have you have been made aware of such something like this?

Cleary, Sheila | She/Hers

0 minutes 35 seconds0:35

Cleary, Sheila | She/Hers 0 minutes 35 seconds

I don't think we have. I know there's quite a lot of interest in SSCS at the moment. We're doing some work on data.

MS

Marsden, Lynsey | She/Hers

0 minutes 36 seconds0:36

Marsden, Lynsey | She/Hers 0 minutes 36 seconds

And the templates out.

Fusa, Olga

0 minutes 45 seconds0:45

Fusa, Olga 0 minutes 45 seconds

Yes, we should have some introduction, Ramnish. I apologize. So I'm Olga and I'm the principal project manager on this project called JI Replacement, soon with the name of Resource Availability Management. That's actually the new name of the project. I should be.

Cleary, Sheila | She/Hers

0 minutes 45 seconds0:45

Cleary, Sheila | She/Hers 0 minutes 45 seconds

Etara, yeah.

Cleary, Sheila | She/Hers 0 minutes 48 seconds

Mhm.

RK

Ramnish Kalsi

0 minutes 49 seconds0:49

Ramnish Kalsi 0 minutes 49 seconds

Yeah.

Fusa, Olga

1 minute 5 seconds1:05

Fusa, Olga 1 minute 5 seconds

introducing that instead of GI. And I'm part of the DTS project delivery group. And next, if we can go present themselves, Eithne.

BE

Bolton, Eithne

1 minute 19 seconds1:19

Bolton, Eithne 1 minute 19 seconds

Hi everyone, I'm Eithne Bolton and I'm a project manager working in DTS. And I believe my role on this particular project will be focusing on stakeholder engagement and business change, Olga, is that fair to say?

Bolton, Eithne 1 minute 41 seconds

Actually, don't know yet.

Fusa, Olga

1 minute 41 seconds1:41

Fusa, Olga 1 minute 41 seconds

I would say it's my user requirements rather than.

BE

Bolton, Eithne

1 minute 46 seconds1:46

Bolton, Eithne 1 minute 46 seconds

Yeah, user requirements.

Fusa, Olga

1 minute 48 seconds1:48

Fusa, Olga 1 minute 48 seconds

Thank you, Abdul.

Sheikh, Abdul

1 minute 51 seconds1:51

Sheikh, Abdul 1 minute 51 seconds

Hi guys, my name is Abdul. I'm a Project Support Officer. I'm working with Olga on the resource management availability management. And so I the JI project.

Fusa, Olga

2 minutes 7 seconds2:07

Fusa, Olga 2 minutes 7 seconds

Faysal.

UF

Uddin, Faysal

2 minutes 9 seconds2:09

Uddin, Faysal 2 minutes 9 seconds

Hi there, I'm Faysal Uddin. I will also be supporting Olga as a project manager on this project.

Fusa, Olga

2 minutes 17 seconds2:17

Fusa, Olga 2 minutes 17 seconds

Thank you, Sheila.

Cleary, Sheila | She/Hers

2 minutes 20 seconds2:20

Cleary, Sheila | She/Hers 2 minutes 20 seconds

Hi everyone, I'm Sheila Cleary. I am the SSCS Service Manager for Social Security and Child Support.

Fusa, Olga

2 minutes 30 seconds2:30

Fusa, Olga 2 minutes 30 seconds

Thank you, Lynsey.

MS

Marsden, Lynsey | She/Hers

2 minutes 33 seconds2:33

Marsden, Lynsey | She/Hers 2 minutes 33 seconds

Hi, I'm Lynsey Marsden and I'm the Deputy Service Manager for SSCS.

Fusa, Olga

2 minutes 39 seconds2:39

Fusa, Olga 2 minutes 39 seconds

Thank you, and Ramnish, please.

RK

Ramnish Kalsi

2 minutes 42 seconds2:42

Ramnish Kalsi 2 minutes 42 seconds

Hi, nice to meet you all. So my name is Ramnish Kalsi. I joined in April to look at, you know, the GI replacement program. So GI, I don't know if you know, GI is a current old system which is used by to manage judicial itinerary for courts and certain RSUs use it.

Ramnish Kalsi 3 minutes

In certain areas, obviously, they tried to onboard Tribunal on to it, but I think the idea was dropped because it is really an old system, so the initial.

Ramnish Kalsi 3 minutes 10 seconds

focus was to actually see if we can build a GI replacement onto a newer, more modern system. And then I think after a month or so, they have now pivoted to say, let's see if we can tribunals, get tribunals onto the new system, because new system in the target architecture is a more, you know, more flexible system which should be able to deal with all sorts of jurisdictions, not just.

Cleary, Sheila | She/Hers

3 minutes 28 seconds3:28

Cleary, Sheila | She/Hers 3 minutes 28 seconds

If.

RK

Ramnish Kalsi

3 minutes 33 seconds3:33

Ramnish Kalsi 3 minutes 33 seconds

a certain cohort. So within tribunals, I think SSCS is the first one that has been selected. I don't know why. I think there's a question that somebody asked why SSCS was selected. I don't know. I was just told that SSCS is the first cohort of users who will be onboarded to this. So the purpose of this exercise is to actually understand how SSCS works today.

Ramnish Kalsi 3 minutes 56 seconds

because we don't, I understand it's all mostly off system processes and Excel sheets, but we have no clarity on it. So it's most of a fact, you know, fact checking exercise and data collection exercise at this point in time.

MS

Marsden, Lynsey | She/Hers

4 minutes 2 seconds4:02

Marsden, Lynsey | She/Hers 4 minutes 2 seconds

Yeah.

Marsden, Lynsey | She/Hers 4 minutes 5 seconds

No.

Marsden, Lynsey | She/Hers 4 minutes 10 seconds

Well, I'm going to take my hand down then because I'll let you explain because I did see the old judicial itinerary and that's where me questions were going to come from. So I'll let you ask your questions first.

Fusa, Olga

4 minutes 25 seconds4:25

Fusa, Olga 4 minutes 25 seconds

Do you want me to give you more information about what is JI and how we came to conclusion about adding Tribunal with the help for understanding the background?

RK

Ramnish Kalsi

4 minutes 33 seconds4:33

Ramnish Kalsi 4 minutes 33 seconds

Yeah.

Cleary, Sheila | She/Hers

4 minutes 37 seconds4:37

Cleary, Sheila | She/Hers 4 minutes 37 seconds

Yeah, I certainly would like to know it, but I think from Lynsey and I's perspective, we were never sort of going to use JI because we've started using List Assist, which has its own judicial availability where they access it.

Cleary, Sheila | She/Hers 4 minutes 55 seconds

themselves and they will record when they're available, when they're not available. And that is in production and we use it in SSCS, but only at one of our regions in Cardiff, yeah. And the plan is basically, as far as I'm aware, is to get all of our venues onto it, all of our regions using that. Now, we know we're replacing List Assist with something else.

Fusa, Olga

5 minutes 6 seconds5:06

Fusa, Olga 5 minutes 6 seconds

Cardiff, isn't it?

Cleary, Sheila | She/Hers

5 minutes 21 seconds5:21

Cleary, Sheila | She/Hers 5 minutes 21 seconds

Obviously, they lost, you know, they've gone out to tender and somebody else is. I think they're going to build in-house now the new product, but we, because we're already on list assist, we're expecting that we're just going to transfer over to whatever the new thing is that they build now.

Fusa, Olga

5 minutes 28 seconds5:28

Fusa, Olga 5 minutes 28 seconds

Yeah.

Cleary, Sheila | She/Hers

5 minutes 39 seconds5:39

Cleary, Sheila | She/Hers 5 minutes 39 seconds

If there's some sort of something else that we're supposed to be using, we're unaware of it. That is our plan as in strategically where we're up to. I don't know about is judicial itinerary going to be using whatever the replacement for list assist is.

Cleary, Sheila | She/Hers 5 minutes 58 seconds

Are you the ones who are going to be building that? I don't know.

RK

Ramnish Kalsi

6 minutes 2 seconds6:02

Ramnish Kalsi 6 minutes 2 seconds

Yeah, I think JI will get decommissioned and whatever the role JI is playing today will move into new product if we call it RAM, which is Resource Availability Manager. I think there is an exercise currently ongoing, and you're right, list assist, I think you're using, and it was mentioned that some of this functionality will move on to list assist, and list assist will get enhanced.

Cleary, Sheila | She/Hers

6 minutes 11 seconds6:11

Cleary, Sheila | She/Hers 6 minutes 11 seconds

Go ahead.

RK

Ramnish Kalsi

6 minutes 22 seconds6:22

Ramnish Kalsi 6 minutes 22 seconds

But there's a separate exercise going where they will say, I think there is also a scheduling and listing project which is ongoing and there is some overlap. So there is currently discussions on what should sit where, but assume the new system is the strategic target system which will be used by users who are currently using GI and hopefully.

MS

Marsden, Lynsey | She/Hers

8 minutes 2 seconds8:02

Marsden, Lynsey | She/Hers 8 minutes 2 seconds

Leicester says to a share.

RK

Ramnish Kalsi

8 minutes 4 seconds8:04

Ramnish Kalsi 8 minutes 4 seconds

Yeah, so it looks like list assist is a better version, which is more integrated, but JI is actually really old. So yeah, you're right. And now in an ideal world, we should be able to take the output from the listings and actually, which actually becomes the actuals, right, what person actually did, and you know, and reconcile those two. So that.

Cleary, Sheila | She/Hers

8 minutes 9 seconds8:09

Cleary, Sheila | She/Hers 8 minutes 9 seconds

Yeah.

MS

Marsden, Lynsey | She/Hers

8 minutes 10 seconds8:10

Marsden, Lynsey | She/Hers 8 minutes 10 seconds

Yeah.

Cleary, Sheila | She/Hers

8 minutes 22 seconds8:22

Cleary, Sheila | She/Hers 8 minutes 22 seconds

Yeah.

MS

Marsden, Lynsey | She/Hers

8 minutes 23 seconds8:23

Marsden, Lynsey | She/Hers 8 minutes 23 seconds

Mmh.

Cleary, Sheila | She/Hers

8 minutes 25 seconds8:25

Cleary, Sheila | She/Hers 8 minutes 25 seconds

Which is a problem with list assist because we're told it's only a planning tool and it doesn't record the actuals, which we find a bit mad because all the information is there. All you have to say is did it go ahead and then you've got your actual, you know.

RK

Ramnish Kalsi

8 minutes 26 seconds8:26

Ramnish Kalsi 8 minutes 26 seconds

Yeah.

MS

Marsden, Lynsey | She/Hers

8 minutes 27 seconds8:27

Marsden, Lynsey | She/Hers 8 minutes 27 seconds

Yeah.

RK

Ramnish Kalsi

8 minutes 28 seconds8:28

Ramnish Kalsi 8 minutes 28 seconds

Okay.

MS

Marsden, Lynsey | She/Hers

8 minutes 30 seconds8:30

Marsden, Lynsey | She/Hers 8 minutes 30 seconds

Two.

RK

Ramnish Kalsi

8 minutes 33 seconds8:33

Ramnish Kalsi 8 minutes 33 seconds

Okay.

Ramnish Kalsi 8 minutes 40 seconds

Yeah. So that is the exercise which is currently happening, right? So you have number of names being thrown, right? You have RAM, you have JI, you have list assist, SNL. So I think the current exercise which is happening is to actually establish that what is sitting where, but as far as I'm told.

Ramnish Kalsi 8 minutes 59 seconds

RAM is the strategic solution for resource management, which is purely allocation management and finding out, you know, which judge set for how many days in which jurisdiction, et cetera, et cetera. In an ideal world, everything should be connected, so we have very little manual activity. So if anything can be deduced from a system, we should be able to enter it once in a system.

Ramnish Kalsi 9 minutes 21 seconds

and if it exposes the information through a channel which is easy to understand for the other systems, then it makes life a lot easier for everyone, right? So we don't have to enter everything twice into different systems. In an ideal world, obviously there will be some exceptions always, but yeah.

MS

Marsden, Lynsey | She/Hers

9 minutes 28 seconds9:28

Marsden, Lynsey | She/Hers 9 minutes 28 seconds

Ohh.

Cleary, Sheila | She/Hers

9 minutes 33 seconds9:33

Cleary, Sheila | She/Hers 9 minutes 33 seconds

Mm.

MS

Marsden, Lynsey | She/Hers

9 minutes 34 seconds9:34

Marsden, Lynsey | She/Hers 9 minutes 34 seconds

Mhm.

Cleary, Sheila | She/Hers

9 minutes 36 seconds9:36

Cleary, Sheila | She/Hers 9 minutes 36 seconds

Me and Lynsey were them of old school here because we used to have our management system was called Gaps. It hasn't been decommissioned yet and that basically is where everything else other than Cardiff is doing all its listings, but that does everything. That does all of the

RK

Ramnish Kalsi

10 minutes 9 seconds10:09

Ramnish Kalsi 10 minutes 9 seconds

Yeah.

Cleary, Sheila | She/Hers

10 minutes 10 seconds10:10

Cleary, Sheila | She/Hers 10 minutes 10 seconds

We basically come to reform which broke that all up into separate little pieces that do it and then they talk to each other. But what me and Lynsey find is quite a lot of the time they don't talk to each other and they fall down a hole and we lose all the information and we have to manually do all kinds of stuff to correct.

RK

Ramnish Kalsi

10 minutes 12 seconds10:12

Ramnish Kalsi 10 minutes 12 seconds

In.

Ramnish Kalsi 10 minutes 22 seconds

Yeah.

Ramnish Kalsi 10 minutes 24 seconds

Yeah.

Cleary, Sheila | She/Hers

10 minutes 29 seconds10:29

Cleary, Sheila | She/Hers 10 minutes 29 seconds

what doesn't work. So sorry if we're not looking like, oh great, we're sort of a bit like, oh no, we're building something that is actually going to have massive bits of data getting passed that can just drop down these holes that we've seen. I know they shouldn't, but they do.

Ramnish Kalsi

10 minutes 34 seconds10:34

Ramnish Kalsi 10 minutes 34 seconds

No, no, no, no, you're absolutely right to absolutely right to pick holes and everything.

BE

Bolton, Eithne

10 minutes 43 seconds10:43

Bolton, Eithne 10 minutes 43 seconds

Yeah.

RK

Ramnish Kalsi

10 minutes 45 seconds10:45

Ramnish Kalsi 10 minutes 45 seconds

Yeah.

BE

Bolton, Eithne

10 minutes 46 seconds10:46

Bolton, Eithne 10 minutes 46 seconds

Shh.

MS

Marsden, Lynsey | She/Hers

10 minutes 46 seconds10:46

Marsden, Lynsey | She/Hers 10 minutes 46 seconds

Yeah.

BE

Bolton, Eithne

10 minutes 48 seconds10:48

Bolton, Eithne 10 minutes 48 seconds

Yeah, Sheila, what was the name of that system?

MS

Marsden, Lynsey | She/Hers

10 minutes 48 seconds10:48

Marsden, Lynsey | She/Hers 10 minutes 48 seconds

Yeah, and there's never a way to correct it.

RK

Ramnish Kalsi

10 minutes 49 seconds10:49

Ramnish Kalsi 10 minutes 49 seconds

Yeah, I mean.

Marsden, Lynsey | She/Hers 11 minutes 45 seconds

We is the plan that you would be trying to integrate this with gaps or is it only integrating with list assist?

Cleary, Sheila | She/Hers

11 minutes 58 seconds11:58

Cleary, Sheila | She/Hers 11 minutes 58 seconds

Or what was list assist?

MS

Marsden, Lynsey | She/Hers

12 minutes12:00

Marsden, Lynsey | She/Hers 12 minutes

Yep, Leicester 2 or whatever we want to call it, yeah.

RK

Ramnish Kalsi

12 minutes 1 second12:01

Ramnish Kalsi 12 minutes 1 second

So.

Cleary, Sheila | She/Hers

12 minutes 3 seconds12:03

Cleary, Sheila | She/Hers 12 minutes 3 seconds

Mm.

RK

Ramnish Kalsi

12 minutes 4 seconds12:04

Ramnish Kalsi 12 minutes 4 seconds

So, we don't know what gaps is, so I think maybe the first point is to understand what actually gaps does today, and then I can put that and take that question and try to understand from, you know, other stakeholders where they see gaps in the, you know, the future.

Cleary, Sheila | She/Hers

12 minutes 9 seconds12:09

Cleary, Sheila | She/Hers 12 minutes 9 seconds

Mhm.

MS

Marsden, Lynsey | She/Hers

12 minutes 9 seconds12:09

Marsden, Lynsey | She/Hers 12 minutes 9 seconds

Hey.

Marsden, Lynsey | She/Hers 12 minutes 17 seconds

Well, they'll tell you that decommissioned, but it's our bread and butter. So, as she...

Cleary, Sheila | She/Hers

12 minutes 20 seconds12:20

Cleary, Sheila | She/Hers 12 minutes 20 seconds

Yeah.

RK

Ramnish Kalsi

12 minutes 21 seconds12:21

Ramnish Kalsi 12 minutes 21 seconds

Yeah.

Cleary, Sheila | She/Hers

12 minutes 22 seconds12:22

Cleary, Sheila | She/Hers 12 minutes 22 seconds

What's the time? What's the timeline for this project? Like, when are we talking this is going to, you know, supposedly happen?

RK

Ramnish Kalsi

12 minutes 23 seconds12:23

Ramnish Kalsi 12 minutes 23 seconds

I see, okay.

Ramnish Kalsi 12 minutes 32 seconds

So there are no, I don't know Olga, you want to take that or not? There are no dates on it yet. I think they're still collecting information.

Fusa, Olga

12 minutes 35 seconds12:35

Fusa, Olga 12 minutes 35 seconds

Yeah, so there's no, yeah, it's not certain a date yet. And just because we still need to do discovery phase with Tribunal and SSCS to understand what we actually getting ourselves into. And once we kind of dissect what is SSCS and what do we need in order to

Cleary, Sheila | She/Hers

12 minutes 45 seconds12:45

Cleary, Sheila | She/Hers 12 minutes 45 seconds

Mhm.

Cleary, Sheila | She/Hers 12 minutes 51 seconds

Hi.

Fusa, Olga

12 minutes 58 seconds12:58

Fusa, Olga 12 minutes 58 seconds

Create this new product, then we'll be able to put a date or some timelines next to next to all the activities.

Cleary, Sheila | She/Hers

13 minutes 8 seconds13:08

Cleary, Sheila | She/Hers 13 minutes 8 seconds

Okay.

Fusa, Olga 14 minutes 37 seconds

So regarding, sorry, if we're looking at what Ram is offering, it's looking only at the resource availability management of judiciary and collecting some of the sitting data. It's not really meant to be a case management system, which Gaps is currently is.

RK

Ramnish Kalsi

14 minutes 37 seconds14:37

Ramnish Kalsi 14 minutes 37 seconds

So, as I understand right, sorry, go on.

Cleary, Sheila | She/Hers

14 minutes 54 seconds14:54

Cleary, Sheila | She/Hers 14 minutes 54 seconds

Yes, so we know that we will have to move off gaps onto managed cases, but then connecting in with access management, if that's the thing and scheduling and listing, all need to talk to each other and talk to managed cases to update whatever you put in there.

MS

Marsden, Lynsey | She/Hers

14 minutes 55 seconds14:55

Marsden, Lynsey | She/Hers 14 minutes 55 seconds

Yeah.

Fusa, Olga

14 minutes 56 seconds14:56

Fusa, Olga 14 minutes 56 seconds

So, what?

Cleary, Sheila | She/Hers

15 minutes 15 seconds15:15

Cleary, Sheila | She/Hers 15 minutes 15 seconds

It.

RK

Ramnish Kalsi

15 minutes 16 seconds15:16

Ramnish Kalsi 15 minutes 16 seconds

And do you know if you have been given a name that where is like, where is a case manager moving out of gaps, which system is it moving into?

Cleary, Sheila | She/Hers

15 minutes 23 seconds15:23

Cleary, Sheila | She/Hers 15 minutes 23 seconds

It's into managed cases. But they're already in managed cases. So we're hybrid source at the moment, everything comes into managed cases and because we only list in list assist, then the cases either move into list assist to be listed for the Cardiff

Fusa, Olga

15 minutes 25 seconds15:25

Fusa, Olga 15 minutes 25 seconds

To the CC gym.

RK

Ramnish Kalsi

15 minutes 25 seconds15:25

Ramnish Kalsi 15 minutes 25 seconds

The managed cases itself.

MS

Marsden, Lynsey | She/Hers

15 minutes 27 seconds15:27

Marsden, Lynsey | She/Hers 15 minutes 27 seconds

Yeah.

RK

Ramnish Kalsi

15 minutes 28 seconds15:28

Ramnish Kalsi 15 minutes 28 seconds

Okay.

Cleary, Sheila | She/Hers

15 minutes 42 seconds15:42

Cleary, Sheila | She/Hers 15 minutes 42 seconds

Or they get pushed into gaps at the ready-to-list stage to be listed into gaps.

RK

Ramnish Kalsi

15 minutes 44 seconds15:44

Ramnish Kalsi 15 minutes 44 seconds

The.

Cleary, Sheila | She/Hers

15 minutes 47 seconds15:47

Cleary, Sheila | She/Hers 15 minutes 47 seconds

So with dual running, if you understand, and we've got them synced up so that when something happens over there, it syncs into managed cases and updates there.

MS

Marsden, Lynsey | She/Hers

15 minutes 50 seconds15:50

Marsden, Lynsey | She/Hers 15 minutes 50 seconds

Yeah.

RK

Ramnish Kalsi

15 minutes 50 seconds15:50

Ramnish Kalsi 15 minutes 50 seconds

Yeah.

MS

Marsden, Lynsey | She/Hers

15 minutes 58 seconds15:58

Marsden, Lynsey | She/Hers 15 minutes 58 seconds

But from the point of what you're talking about, which is judicial availability and resource management, those are currently managed in list assist or in gaps. So for list assist, they've got all the

Cleary, Sheila | She/Hers

16 minutes 3 seconds16:03

Cleary, Sheila | She/Hers 16 minutes 3 seconds

Yeah.

RK

Ramnish Kalsi

16 minutes 10 seconds16:10

Ramnish Kalsi 16 minutes 10 seconds

OK.

MS

Marsden, Lynsey | She/Hers

16 minutes 16 seconds16:16

Marsden, Lynsey | She/Hers 16 minutes 16 seconds

the existing logic. So, you know, we've got judicial records created, they have their own calendars, the judges, the judiciary go in and make themselves available so to sit, they can decline the session bookings up to 14 days.

Marsden, Lynsey | She/Hers 16 minutes 37 seconds

And...

Marsden, Lynsey | She/Hers 16 minutes 39 seconds

and then obviously we can then go in and allocate the judges to the sessions, etc, etc. The same thing happens in gaps, albeit everything is done manually, so the judges

judiciary don't access gaps. They'll send us an e-mail or an MS form is about to be issued.

Marsden, Lynsey | She/Hers 17 minutes

provide that availability, someone goes in and updates it, that then allows us to allocate those members to sessions and as Sheila has already explained, GAPS has got a much better reporting system because it's not just a planning tool, it's an end to end case management system so we can get all our data.

RK

Ramnish Kalsi

17 minutes 13 seconds17:13

Ramnish Kalsi 17 minutes 13 seconds

Mmh.

Marsden, Lynsey | She/Hers 18 minutes 42 seconds

That's the bit I'm really interested in is I appreciate it's like a central point, but who's updating it and when we're doing something, let's just keep a happy path in Leicester. So I go and allocate you to a session. Is it just going to then go and change?

RK

Ramnish Kalsi

18 minutes 53 seconds18:53

Ramnish Kalsi 18 minutes 53 seconds

Yeah.

MS

Marsden, Lynsey | She/Hers

19 minutes 3 seconds19:03

Marsden, Lynsey | She/Hers 19 minutes 3 seconds

because if it requires somebody to go back in and go, ah, I'm now amending Sheila from available to booked and have to input all the session information, that's as long as it actually takes us to, longer than it's taken us to allocate it in.

Marsden, Lynsey | She/Hers 19 minutes 23 seconds

In Leicester, the session.

RK

Ramnish Kalsi

19 minutes 23 seconds19:23

Ramnish Kalsi 19 minutes 23 seconds

Yeah.

Ramnish Kalsi 19 minutes 26 seconds

So, I can't really give you, yeah.

MS

Marsden, Lynsey | She/Hers

19 minutes 26 seconds19:26

Marsden, Lynsey | She/Hers 19 minutes 26 seconds

It does have to really be a live feeding so that, yeah, we can view it and then it helps who's available. Have we got any additional availability here, blah, blah, blah. All that would be perfect to be able to see. But if it's requiring you as we first saw it,

Marsden, Lynsey | She/Hers 19 minutes 45 seconds

to input the info, business as usual in whichever system and then go back in, it doesn't really work.

RK

Ramnish Kalsi

19 minutes 54 seconds19:54

Ramnish Kalsi 19 minutes 54 seconds

Yeah, so in an ideal world, you shouldn't have to enter it twice in a system, but I think we are too early on in the process to be able to say how it will eventually work, because without going to the detail, we can't really, you know, give that assurance. But the in an ideal world, we should get be we should be getting data upstream from, you know, the JHR about all the judges.

Cleary, Sheila | She/Hers

20 minutes20:00

Cleary, Sheila | She/Hers 20 minutes

Mhm.

MS

Marsden, Lynsey | She/Hers

20 minutes 2 seconds20:02

Marsden, Lynsey | She/Hers 20 minutes 2 seconds

Yep.

RK

Ramnish Kalsi

20 minutes 14 seconds20:14

Ramnish Kalsi 20 minutes 14 seconds

And then whenever listing is happened, it should automatically update the, you know, that listing for that judge what actually happened on that day specific day. But I think in terms of, so I have in terms of gaps, right? So gaps is, because gaps does pretty much everything as you, as you mentioned, right? So do we know like where the case management, because list assist.

Ramnish Kalsi 20 minutes 34 seconds

Because I'm not clear on what roles each one of it is playing. Is it like dual role that you're using both the systems or certain regions are using X system and certain regions are using, you know, other system?

Ramnish Kalsi 20 minutes 47 seconds

Maybe you already explained it, but you maybe go over it one more time.

Cleary, Sheila | She/Hers

20 minutes 47 seconds20:47

Cleary, Sheila | She/Hers 20 minutes 47 seconds

Mm.

Cleary, Sheila | She/Hers 20 minutes 50 seconds

So, so we built the system for SSCS on reform, yeah, starting.

Cleary, Sheila | She/Hers 20 minutes 59 seconds

Really, to allow citizens to access online, start digital using it digitally, so...

Cleary, Sheila | She/Hers 21 minutes 7 seconds

They come into the system, the new system, Digital Appeals come in to manage cases.

Cleary, Sheila | She/Hers 21 minutes 13 seconds

Yeah, that's their access into our service. They come in as a digital.

Fusa, Olga

21 minutes 17 seconds21:17

Fusa, Olga 21 minutes 17 seconds

Is it sorry, Sheila, is it called CCD, if I remember right?

Cleary, Sheila | She/Hers

21 minutes 20 seconds21:20

Cleary, Sheila | She/Hers 21 minutes 20 seconds

Yeah, yeah. Well, we call it managed cases as the user front that we see. The judges have JCM, which is the judicial, what's the case management, but it's all CCD in the background.

MS

Marsden, Lynsey | She/Hers

21 minutes 20 seconds21:20

Marsden, Lynsey | She/Hers 21 minutes 20 seconds

Yep, but...

Marsden, Lynsey | She/Hers 21 minutes 33 seconds

Case management.

Fusa, Olga

21 minutes 39 seconds21:39

Fusa, Olga 21 minutes 39 seconds

Wow.

RK

Ramnish Kalsi

21 minutes 39 seconds21:39

Ramnish Kalsi 21 minutes 39 seconds

OK.

Cleary, Sheila | She/Hers

21 minutes 40 seconds21:40

Cleary, Sheila | She/Hers 21 minutes 40 seconds

So everything, let's say, comes into CCD and there it stays until we've got certain points in the appeal as it processes through. And it's when we get to this ready for this state. So, you know, we're waiting for a response from the other government department and the other, the respondents in the case.

Cleary, Sheila | She/Hers 22 minutes

We're waiting for that. We're waiting for them to send further evidence. They're waiting to give us, we're waiting to give if the directions from the judge have said they wanted something. But once that case hits the ready for list status, at the moment, if it's Cardiff, it will fire off from

Cleary, Sheila | She/Hers 22 minutes 20 seconds

CCD into List Assist with all of that listing information that's needed to list that case. When it gets into List Assist, List Assist creates a case for them because it doesn't exist in List Assist at the moment. So it will take all that information that we've got in CCD, build a case in List Assist,

Cleary, Sheila | She/Hers 22 minutes 43 seconds

put all our requirements in and then it'll join a big queue because we've got that, you know, we've got such a big live load, it's not like we instantly just put them on a session because we haven't got enough sessions for the cases that we've got. So anyway, that's what happens over in the list assist world. When it's ready for list and it's not going into list assist because we haven't moved over to list assist yet,

BE

Bolton, Eithne

23 minutes 4 seconds23:04

Bolton, Eithne 23 minutes 4 seconds

Yeah.

Cleary, Sheila | She/Hers

23 minutes 5 seconds23:05

Cleary, Sheila | She/Hers 23 minutes 5 seconds

on the other six regions, that will get robotics into Gaps. So all the information that built the case in CCD is then put into adjacent, sent over to the robot. The robot then builds it for us in Gaps and takes it right up to the ready for list stage. We then

Cleary, Sheila | She/Hers 23 minutes 24 seconds

list those cases in Gaps, the ones that we've sent over to List Assist, we list over in List Assist. So there's two things happening, but when it's been listed in Gaps, we've got something called Caseloader runs every night and it looks at certain changes in Gaps and pushes it

Cleary, Sheila | She/Hers 23 minutes 44 seconds

those changes back into DCD to sync the two systems together.

Cleary, Sheila | She/Hers 23 minutes 51 seconds

Boom.

RK

Ramnish Kalsi

23 minutes 51 seconds23:51

Ramnish Kalsi 23 minutes 51 seconds

And is there a reason that all the regions are not using list assist?

Cleary, Sheila | She/Hers

23 minutes 55 seconds23:55

Cleary, Sheila | She/Hers 23 minutes 55 seconds

Yeah, because we can't get any MI from List Assist and we can't get any reports about sitting days or anything like that. But gap cancellation, gaps has all of that because it's, you know, it's...

RK

Ramnish Kalsi

23 minutes 59 seconds23:59

Ramnish Kalsi 23 minutes 59 seconds

Out of, I see, OK.

MS

Marsden, Lynsey | She/Hers

24 minutes 5 seconds24:05

Marsden, Lynsey | She/Hers 24 minutes 5 seconds

Cancelations, yeah.

RK

Ramnish Kalsi

24 minutes 12 seconds24:12

Ramnish Kalsi 24 minutes 12 seconds

And do.

MS

Marsden, Lynsey | She/Hers

24 minutes 12 seconds24:12

Marsden, Lynsey | She/Hers 24 minutes 12 seconds

I've got a direct feed into finance, a direct, we lost our direct feed into OPT. Gaps for our old SheHers is very clever. Yeah.

Cleary, Sheila | She/Hers

24 minutes 15 seconds24:15

Cleary, Sheila | She/Hers 24 minutes 15 seconds

Mm.

RK

Ramnish Kalsi

24 minutes 22 seconds24:22

Ramnish Kalsi 24 minutes 22 seconds

Yeah, good. And do you know if there is a plan for list assist to actually do those things which it currently does not do?

Cleary, Sheila | She/Hers

24 minutes 24 seconds24:24

Cleary, Sheila | She/Hers 24 minutes 24 seconds

Mm.

Cleary, Sheila | She/Hers 24 minutes 31 seconds

Yeah, there is a plan, yeah.

RK

Ramnish Kalsi

24 minutes 32 seconds24:32

Ramnish Kalsi 24 minutes 32 seconds

Like the reporting.

MS

Marsden, Lynsey | She/Hers

24 minutes 33 seconds24:33

Marsden, Lynsey | She/Hers 24 minutes 33 seconds

Yeah, but at the moment, with regards to the reports, but as it is at the moment, unless the next version of it at some point gets changed, list assist is only a planning tool.

RK

Ramnish Kalsi

24 minutes 48 seconds24:48

Ramnish Kalsi 24 minutes 48 seconds

Mhm.

Cleary, Sheila | She/Hers 25 minutes 30 seconds

No idea the.

MS

Marsden, Lynsey | She/Hers

25 minutes 31 seconds25:31

Marsden, Lynsey | She/Hers 25 minutes 31 seconds

This is Team stood up, wasn't it?

Cleary, Sheila | She/Hers

25 minutes 33 seconds25:33

Cleary, Sheila | She/Hers 25 minutes 33 seconds

Yeah?

MS

Marsden, Lynsey | She/Hers

25 minutes 35 seconds25:35

Marsden, Lynsey | She/Hers 25 minutes 35 seconds

I can't remember. If we think of the name in the background, we can send it on to your Olga. We'll have an e-mail. No, she introduced us to the other people, but we could always reach out. But yep.

Cleary, Sheila | She/Hers

25 minutes 41 seconds25:41

Cleary, Sheila | She/Hers 25 minutes 41 seconds

Is it Mathew?

Cleary, Sheila | She/Hers 25 minutes 44 seconds

Yeah.

Cleary, Sheila | She/Hers 25 minutes 48 seconds

We'll try and find out for you who's looking at that.

MS

Marsden, Lynsey | She/Hers

25 minutes 49 seconds25:49

Marsden, Lynsey | She/Hers 25 minutes 49 seconds

Try and find the names.

RK

Ramnish Kalsi

25 minutes 52 seconds25:52

Ramnish Kalsi 25 minutes 52 seconds

So you mentioned one region, right, which is using list assist today, which is Cardiff, you mentioned, right? And six other regions who still use gaps. And the reason all those six regions haven't migrated to list assist is because list assist lacks the reporting functionality which is needed for generating the sitting reports and other things.

Fusa, Olga

25 minutes 52 seconds25:52

Fusa, Olga 25 minutes 52 seconds

K.

Cleary, Sheila | She/Hers

25 minutes 56 seconds25:56

Cleary, Sheila | She/Hers 25 minutes 56 seconds

Yeah.

Cleary, Sheila | She/Hers 25 minutes 59 seconds

Mhm.

Cleary, Sheila | She/Hers 26 minutes 8 seconds

Yes, yeah, and the judges will be refusing to use it until they can get that info, yeah.

RK

Ramnish Kalsi

26 minutes 12 seconds26:12

Ramnish Kalsi 26 minutes 12 seconds

Mhm.

Ramnish Kalsi 26 minutes 14 seconds

Yeah, OK.

BE

Bolton, Eithne

26 minutes 15 seconds26:15

Bolton, Eithne 26 minutes 15 seconds

Sorry, could I ask a question? Why did...

Bolton, Eithne 26 minutes 22 seconds

Why did Cardiff migrate to Leicester if the MI wasn't available?

MS

Marsden, Lynsey | She/Hers

26 minutes 29 seconds26:29

Marsden, Lynsey | She/Hers 26 minutes 29 seconds

As we were told it will bake sooner than it was.

Cleary, Sheila | She/Hers

26 minutes 31 seconds26:31

Cleary, Sheila | She/Hers 26 minutes 31 seconds

Yes.

RK

Ramnish Kalsi

26 minutes 32 seconds26:32

Ramnish Kalsi 26 minutes 32 seconds

The.

Cleary, Sheila | She/Hers

26 minutes 33 seconds26:33

Cleary, Sheila | She/Hers 26 minutes 33 seconds

Yeah, I mean, it was always a requirement that we'd put in the MI, but then obviously when it was built, it became apparent that they couldn't get the MI, even though because you're not recording the actual anyway.

Bolton, Eithne

26 minutes 33 seconds26:33

Bolton, Eithne 26 minutes 33 seconds

Okay.

RK

Ramnish Kalsi

26 minutes 34 seconds26:34

Ramnish Kalsi 26 minutes 34 seconds

See you.

BE

Bolton, Eithne

26 minutes 47 seconds26:47

Bolton, Eithne 26 minutes 47 seconds

Yeah, no, no information to to manage, yeah.

Cleary, Sheila | She/Hers

26 minutes 49 seconds26:49

Cleary, Sheila | She/Hers 26 minutes 49 seconds

Yeah.

Cleary, Sheila | She/Hers 26 minutes 50 seconds

Yeah, so it's like they can't do it because it's not recorded anywhere. We had to do some extra work on the service side to be able to outcome the appeals that were listed because we needed the disposals for them. So we've had to build our own stuff to record what happened on the case, but it's case level, it's not session level.

BE

Bolton, Eithne

27 minutes 11 seconds27:11

Bolton, Eithne 27 minutes 11 seconds

And.

RK

Ramnish Kalsi

27 minutes 11 seconds27:11

Ramnish Kalsi 27 minutes 11 seconds

Mhm.

Cleary, Sheila | She/Hers

27 minutes 11 seconds27:11

Cleary, Sheila | She/Hers 27 minutes 11 seconds

And that's where there's a hole.

Cleary, Sheila | She/Hers 27 minutes 14 seconds

But we were the one of the first people, one of the first integrated services to use List Assist, as in we things happen automatically. We don't manually do stuff. A lot of the other people that are using List Assist, they manually request things. So a case goes ready to list, someone has to manually go in and fill in something.

Cleary, Sheila | She/Hers 27 minutes 35 seconds

and send that off. Ours is all automatic in the background, hitting the state, read stuff, sends it. Because of the volumes, we wouldn't accept the manual thing. Because we

don't have to do that now in gaps. It just goes ready for list and then we list it. You know, we don't have to go in and then start putting all kinds of requirements in.

BE

Bolton, Eithne

27 minutes 39 seconds27:39

Bolton, Eithne 27 minutes 39 seconds

Yeah.

Cleary, Sheila | She/Hers

27 minutes 57 seconds27:57

Cleary, Sheila | She/Hers 27 minutes 57 seconds

So yeah, that's where we're left with them. There was quite a lot of other things that weren't working very well on list assist, which is why.

Cleary, Sheila | She/Hers 28 minutes 6 seconds

There's only Cardiff gone over and it was a pilot, but it has been nearly three years now where they're still the only region using it and other things have come along which have taken priority. So we've actually, because the MI is not there, there's still a lot of things about

RK

Ramnish Kalsi

28 minutes 12 seconds28:12

Ramnish Kalsi 28 minutes 12 seconds

Yeah.

Cleary, Sheila | She/Hers

28 minutes 26 seconds28:26

Cleary, Sheila | She/Hers 28 minutes 26 seconds

finance, how finance are paid, because they take a direct feed through gaps to see all of the sessions and then we can, because we update the sessions to say they went ahead, they can then pay based on the judges, the fee paid judges that sat. You can't do that in

list assist because you're not updating whether they actually attended. So that's all done on a spreadsheet.

BE

Bolton, Eithne

28 minutes 48 seconds28:48

Bolton, Eithne 28 minutes 48 seconds

Yep.

Cleary, Sheila | She/Hers

28 minutes 49 seconds28:49

Cleary, Sheila | She/Hers 28 minutes 49 seconds

and then sent over to finance. And then we also think the regions may not be happy taking that work around approach through because it's the clerks on the day having to fill in. So we're basically, if they fill it in wrong, we're paying, you know, there's error, there's margins for error, and it's payments. So that's not

RK

Ramnish Kalsi

29 minutes 1 second29:01

Ramnish Kalsi 29 minutes 1 second

Mm.

BE

Bolton, Eithne

29 minutes 2 seconds29:02

Bolton, Eithne 29 minutes 2 seconds

I understand.

Cleary, Sheila | She/Hers

29 minutes 8 seconds29:08

Cleary, Sheila | She/Hers 29 minutes 8 seconds

great. And then we also had a direct feed in OPT, which is 1 performance truth where it would feed into the resources that we use in the rooms. So we could see whether we were using all of our maximising our room capacities and space and our venues. But that doesn't happen either. And now we have to manually put

RK

Ramnish Kalsi

29 minutes 22 seconds29:22

Ramnish Kalsi 29 minutes 22 seconds

AAA.

Cleary, Sheila | She/Hers

29 minutes 30 seconds29:30

Cleary, Sheila | She/Hers 29 minutes 30 seconds

that in. So again, there is reluctance to move those other regions until we've got something in place that can do those things.

RK

Ramnish Kalsi

29 minutes 40 seconds29:40

Ramnish Kalsi 29 minutes 40 seconds

Yeah, and just...

BE

Bolton, Eithne

29 minutes 40 seconds29:40

Bolton, Eithne 29 minutes 40 seconds

Understandable reluctance, OK.

Cleary, Sheila | She/Hers

29 minutes 42 seconds29:42

Cleary, Sheila | She/Hers 29 minutes 42 seconds

Yeah.

RK

Ramnish Kalsi

29 minutes 42 seconds29:42

Ramnish Kalsi 29 minutes 42 seconds

Yeah, so you have 7 regions that you mentioned, one is card and six others, and.

Ramnish Kalsi 29 minutes 51 seconds

Because to be honest, we are only addressing the resource allocation side of it, but it looks like there are a number of other things that, you know, are still sort of...

Ramnish Kalsi 30 minutes 1 second

you know, we need to maybe take an overall picture of what is happening where, because we don't want to give you a solution which does not work end to end, right? If you are doing resource allocation, if we are doing resource allocation, then whosoever is, you know, doing the listings needs to be able to, you know, give us the data.

Cleary, Sheila | She/Hers

30 minutes 11 seconds30:11

Cleary, Sheila | She/Hers 30 minutes 11 seconds

No, gotcha.

Cleary, Sheila | She/Hers 30 minutes 20 seconds

So yeah, you need to tap into each other. We can't have something standalone there where we then have to copy it over into something to be able to do the listing. That doesn't work for us.

RK

Ramnish Kalsi

30 minutes 21 seconds30:21

Ramnish Kalsi 30 minutes 21 seconds

Yeah, yeah.

Yeah.

Ramnish Kalsi 30 minutes 30 seconds

Yeah, no, no, we we don't need time to make a stand-alone system. I think that is not not the intention at all.

Cleary, Sheila | She/Hers

30 minutes 34 seconds30:34

Cleary, Sheila | She/Hers 30 minutes 34 seconds

Okay.

Cleary, Sheila | She/Hers 30 minutes 37 seconds

Well, I mean, like I say, I know Leicester is getting rebuilt. They're looking for a like-to-like product. So therefore, it's got the availability for the judges in here. So therefore, I would have thought they were going to build something similar. So I don't know where they are, if there's a bit of overlap here.

Cleary, Sheila | She/Hers 30 minutes 57 seconds

With your project and theirs, whether we need, yeah.

RK

Ramnish Kalsi

30 minutes 58 seconds30:58

Ramnish Kalsi 30 minutes 58 seconds

Yeah.

Ramnish Kalsi 31 minutes

There is nothing. Yeah, there is, there is. I think that is where we are having some discussions with that team because there are three projects here. One is RAM, which is resource availability. One is SNL, which is scheduling and listing, and list assist, which is actually a currently, you know, as you are using it, which is currently does not have everything. And I think there is some.

Ramnish Kalsi 31 minutes 21 seconds

discussion on what are the extensions that need to go into list assist and what are the things that need to be picked from what currently JI is doing and where should they sit in the new you know new sort of world and from that the resource availability management where of the back of which we can create all the sittings information data.

Ramnish Kalsi 31 minutes 43 seconds

is, you know, current view is that we should move that into RAM, which is the resource availability manager.

Cleary, Sheila | She/Hers

31 minutes 49 seconds31:49

Cleary, Sheila | She/Hers 31 minutes 49 seconds

Yeah, well, I mean, I'm happy for it to move in, just as long as it's connected to the system that we're using.

Fusa, Olga

31 minutes 50 seconds31:50

Fusa, Olga 31 minutes 50 seconds

All right.

RK

Ramnish Kalsi

31 minutes 57 seconds31:57

Ramnish Kalsi 31 minutes 57 seconds

Yeah.

Fusa, Olga

32 minutes32:00

Fusa, Olga 32 minutes

So, Ramnish, you mentioned 3 projects. There are only two for schedule and listing is the service, but Leicester, this is the current application that they're using. Are you referring the SNL for CFT and the SNL for crime?

RK

Ramnish Kalsi

32 minutes 16 seconds32:16

Ramnish Kalsi 32 minutes 16 seconds

Possibly, I think list assist I saw in that sheet which we went through. So maybe I'm misquoting there because it mentioned list assist extension. So I think that is the discussion we were having with Gary, right? We didn't really get to the bottom of that because that is we need to get to the bottom of because we shouldn't be building one thing into.

Ramnish Kalsi 32 minutes 35 seconds

two separate projects. So we need to get to the bottom of that discussion to make sure who's doing what and not duplicating things.

Fusa, Olga

32 minutes 42 seconds32:42

Fusa, Olga 32 minutes 42 seconds

Yeah, so the schedule and listing is the project or the service itself, but what they are using currently as an application is list assist. And the requirements that we're basing is the future list assist, which is kind of the new product they're trying to build for schedule and listing.

Cleary, Sheila | She/Hers

33 minutes 2 seconds33:02

Cleary, Sheila | She/Hers 33 minutes 2 seconds

Yeah.

Fusa, Olga

33 minutes 4 seconds33:04

Fusa, Olga 33 minutes 4 seconds

Does that make sense?

RK

Ramnish Kalsi

33 minutes 4 seconds33:04

Ramnish Kalsi 33 minutes 4 seconds

So do you have a?

Ramnish Kalsi 33 minutes 6 seconds

Do you have any like documentation? Because I think, I don't know, maybe I was misled to think that it is all happening in Excel sheets, but it looks like you have some systems or you have gaps, you have, you're using list assist in certain situations. So do you have like processes which are off system?

Cleary, Sheila | She/Hers

33 minutes 21 seconds33:21

Cleary, Sheila | She/Hers 33 minutes 21 seconds

No.

Cleary, Sheila | She/Hers 33 minutes 25 seconds

I'm just thinking about like, there may be other tribunals that don't use one of those, one of the systems we're talking about. You know, Lynn's one of the smaller tribunals where it might sit better, as in because they're not using list assist like we are.

Ramnish Kalsi 34 minutes 4 seconds

I believe that was the rational that, because the, you know, the settings data wasn't available, and what is it specifically for this Tribunal or is it for other when you say other tribunals, do you mention do you mean like other tribunals like employment Tribunal or OK?

Cleary, Sheila | She/Hers

34 minutes 9 seconds34:09

Cleary, Sheila | She/Hers 34 minutes 9 seconds

Yes.

Cleary, Sheila | She/Hers 34 minutes 19 seconds

Yeah, and you know, criminal injuries, AST, sound support and stuff like that. I like that isn't the only things that we are doing on spreadsheets is where list assist isn't giving us the actuals.

MS

Marsden, Lynsey | She/Hers

34 minutes 25 seconds34:25

Marsden, Lynsey | She/Hers 34 minutes 25 seconds

Yeah.

Cleary, Sheila | She/Hers

34 minutes 38 seconds34:38

Cleary, Sheila | She/Hers 34 minutes 38 seconds

So that's we have to do a work around by putting whether you know that session went ahead. Did that did that judge turn up on the day? Did that panel member come? Don't forget our sessions are usually three panel members that are involved in the majority of ours.

RK

Ramnish Kalsi

34 minutes 38 seconds34:38

Ramnish Kalsi 34 minutes 38 seconds

Okay.

Ramnish Kalsi 34 minutes 55 seconds

Mmh.

Cleary, Sheila | She/Hers

34 minutes 57 seconds34:57

Cleary, Sheila | She/Hers 34 minutes 57 seconds

So, you know, we have to say, yes, they did come.

Cleary, Sheila | She/Hers 35 minutes 2 seconds

So then we have to pay them and then that will be counted as a sitting day for them. And then if they cancelled, we would be able to say, if we were doing all this in gaps, we'd be able to say, we booked in Olga for 40 sessions, she turned off for 36, she cancelled for

RK

Ramnish Kalsi

35 minutes 7 seconds35:07

Ramnish Kalsi 35 minutes 7 seconds

Yeah.

Cleary, Sheila | She/Hers

35 minutes 21 seconds35:21

Cleary, Sheila | She/Hers 35 minutes 21 seconds

Before she cancelled, she cancelled on the day of the hearing, two of them three weeks before the hearing. We have all of that information drilled down, but we don't have any of it in Leicester Assist because they didn't build it with NMI because it was a, they've built it as a planning tool only.

RK

Ramnish Kalsi

35 minutes 36 seconds35:36

Ramnish Kalsi 35 minutes 36 seconds

Mhm.

Cleary, Sheila | She/Hers

35 minutes 40 seconds35:40

Cleary, Sheila | She/Hers 35 minutes 40 seconds

So the whole thing is we need actuals.

RK

Ramnish Kalsi

35 minutes 40 seconds35:40

Ramnish Kalsi 35 minutes 40 seconds

Yeah.

Cleary, Sheila | She/Hers

35 minutes 43 seconds35:43

Cleary, Sheila | She/Hers 35 minutes 43 seconds

from what is planned to be able to say how many sitting days did someone sit. We haven't got any of that in list assist.

RK

Ramnish Kalsi

35 minutes 50 seconds35:50

Ramnish Kalsi 35 minutes 50 seconds

Yeah.

Ramnish Kalsi 35 minutes 53 seconds

So the new system, whatever that shape it takes, what you're saying is it should be able to capture, you know, that actual information as well.

Cleary, Sheila | She/Hers

36 minutes 1 second36:01

Cleary, Sheila | She/Hers 36 minutes 1 second

No, so the thing we're being told is the replacement is like for life. So whatever they are building, they are going to build whatever Leicester can do. Now, they may enhance it after they've built it to be able to do these things.

RK

Ramnish Kalsi

36 minutes 7 seconds36:07

Ramnish Kalsi 36 minutes 7 seconds

Okay.

Cleary, Sheila | She/Hers

36 minutes 20 seconds36:20

Cleary, Sheila | She/Hers 36 minutes 20 seconds

but we knew there was a strategic project set up to look at actuals because there's such a hole there and we were saying, you know, we might have to wait for that strategic solution or otherwise, if we want to move all the other regions onto Leicester, they're going to have to use the tactical spreadsheets.

Cleary, Sheila | She/Hers 36 minutes 40 seconds

Until.

Cleary, Sheila | She/Hers 36 minutes 42 seconds

such as available, whatever comes first. And I don't know whether what you're building fits in with that structure or yours is something completely separate, because like I said, we didn't use JI anyway. We never have. So I don't know.

RK

Ramnish Kalsi

36 minutes 58 seconds36:58

Ramnish Kalsi 36 minutes 58 seconds

Yeah.

Cleary, Sheila | She/Hers

37 minutes 2 seconds37:02

Cleary, Sheila | She/Hers 37 minutes 2 seconds

whether they're going to say, well, put all your stuff there and then we'll link in on this new thing with it and then obviously we'll pass back the information to your case management.

RK

Ramnish Kalsi

37 minutes 2 seconds37:02

Ramnish Kalsi 37 minutes 2 seconds

So, yeah, so let's, yeah.

Ramnish Kalsi 37 minutes 12 seconds

Yeah, so let's forget about GI for a second, right? Sorry, Olga.

Cleary, Sheila | She/Hers 38 minutes 25 seconds

you know, allocation. So we want availability for six months. Now in list assist, if we're going to list our cases in list assist, so for Cardiff, they can go into list assist and put whether they're available for six, the six months

Cleary, Sheila | She/Hers 38 minutes 44 seconds

all on themselves on their own. They log in as themselves, it will come to them as their account and then they go in and say, I'm available these days in October, November, December, January, all the way through. For gaps, they have to write it down.

Cleary, Sheila | She/Hers 39 minutes 3 seconds

you know, literally e-mail it or whatever way we're asking for it, which is usually by e-mail. And then somebody has to go in and input all of those dates that they gave us into the GAP system so that when we run the sessions, it knows who we can put on them.

Fusa, Olga

39 minutes 17 seconds39:17

Fusa, Olga 39 minutes 17 seconds

Oh.

Fusa, Olga 39 minutes 21 seconds

So when you're saying we're asking for this data, who exactly in the SSCS structure is asking for this information? What is the name of that team?

Cleary, Sheila | She/Hers

39 minutes 29 seconds39:29

Cleary, Sheila | She/Hers 39 minutes 29 seconds

Which, which information?

Fusa, Olga

39 minutes 32 seconds39:32

Fusa, Olga 39 minutes 32 seconds

About judicial availability that they need to complete a location.

MS

Marsden, Lynsey | She/Hers

39 minutes 34 seconds39:34

Marsden, Lynsey | She/Hers 39 minutes 34 seconds

The allocations team manage the availability.

Fusa, Olga

39 minutes 42 seconds39:42

Fusa, Olga 39 minutes 42 seconds

Are they the ones that are in searching into gaps?

RK

Ramnish Kalsi

39 minutes 42 seconds39:42

Ramnish Kalsi 39 minutes 42 seconds

Olga, we need to.

Cleary, Sheila | She/Hers

39 minutes 46 seconds39:46

Cleary, Sheila | She/Hers 39 minutes 46 seconds

Yes, so each region has its own allocations team.

RK

Ramnish Kalsi

39 minutes 51 seconds39:51

Ramnish Kalsi 39 minutes 51 seconds

Well, we need to find out about this. So I think you mentioned list assist sort of, you know, updates to list assist. So you've been told that there will be enhancements to list assist to cater to some of these things. So we need to find out what project is actually doing that because as far as I know, I'm not aware of any project which is looking at.

Ramnish Kalsi 40 minutes 10 seconds

extending or enhancing list assist.

Fusa, Olga

40 minutes 13 seconds40:13

Fusa, Olga 40 minutes 13 seconds

No, it's only schedule listing that they're doing and it's being.

Cleary, Sheila | She/Hers

40 minutes 14 seconds40:14

Cleary, Sheila | She/Hers 40 minutes 14 seconds

It.

BE

Bolton, Eithne

40 minutes 15 seconds40:15

Bolton, Eithne 40 minutes 15 seconds

Yeah.

MS

Marsden, Lynsey | She/Hers

40 minutes 21 seconds40:21

Marsden, Lynsey | She/Hers 40 minutes 21 seconds

After it, yeah.

RK

Ramnish Kalsi

40 minutes 22 seconds40:22

Ramnish Kalsi 40 minutes 22 seconds

Okay, yeah.

Fusa, Olga

40 minutes 22 seconds40:22

Fusa, Olga 40 minutes 22 seconds

Yeah.

RK

Ramnish Kalsi

40 minutes 32 seconds40:32

Ramnish Kalsi 40 minutes 32 seconds

Okay.

Fusa, Olga

40 minutes 32 seconds40:32

Fusa, Olga 40 minutes 32 seconds

In regards the projects about actuals, there was such a project, I think Nikki, I forgot the last name of the lady. Yes, she was looking to that, but their involvement finalised to the point that they just presented some recommendations and.

Cleary, Sheila | She/Hers

40 minutes 40 seconds40:40

Cleary, Sheila | She/Hers 40 minutes 40 seconds

Nikki Reynolds, what say?

Fusa, Olga

40 minutes 52 seconds40:52

Fusa, Olga 40 minutes 52 seconds

they recommended to have the resource availability to have it in this future ramp that we're trying to achieve. Regarding the actuals or the more detail of the case, how it behaves and what happened during the

Fusa, Olga 41 minutes 10 seconds

The case hearing itself, I think that is supposed to be picked up.

Fusa, Olga 41 minutes 15 seconds

Separately, so we can look at that with with Ramnish. I can I can speak to the actual project.

Cleary, Sheila | She/Hers

41 minutes 22 seconds41:22

Cleary, Sheila | She/Hers 41 minutes 22 seconds

Yeah.

Cleary, Sheila | She/Hers 41 minutes 24 seconds

But...

Fusa, Olga

41 minutes 25 seconds41:25

Fusa, Olga 41 minutes 25 seconds

But yeah, I don't think they put...

Fusa, Olga 41 minutes 28 seconds

It was a project to look, from what I saw, the involvement was to produce a recommendation rather than take it forward, if that makes sense.

RK

Ramnish Kalsi

46 minutes 20 seconds46:20

Ramnish Kalsi 46 minutes 20 seconds

Yeah.

Ramnish Kalsi 46 minutes 27 seconds

Yeah.

MS

Marsden, Lynsey | She/Hers

46 minutes 28 seconds46:28

Marsden, Lynsey | She/Hers 46 minutes 28 seconds

So, yeah, so they've had that speech before. So they'll probably say, we know all about SSCS, they don't like manually inputting, but it's because of all the risks involved with manually inputting data in such a

Marsden, Lynsey | She/Hers 46 minutes 45 seconds

main part of our process, this is where all the finance and everything is connected, all the MI, etc, etc.

RK

Ramnish Kalsi

46 minutes 55 seconds46:55

Ramnish Kalsi 46 minutes 55 seconds

Yeah, obviously if you are entering the same thing twice, there is, you know, human error. You can always, you know, put two instead of three and this just makes the whole thing wrong. So just talking about Cardiff a little bit more, so how does Cardiff manage the availability side of things today?

MS

Marsden, Lynsey | She/Hers

47 minutes 11 seconds47:11

Marsden, Lynsey | She/Hers 47 minutes 11 seconds

I have the feeling you're going to ask that cell. I'm not, I'm going to share my screen. I won't go into War and Peace or anything like that, but let me.

RK

Ramnish Kalsi

47 minutes 13 seconds47:13

Ramnish Kalsi 47 minutes 13 seconds

Yeah.

BE

Bolton, Eithne

47 minutes 14 seconds47:14

Bolton, Eithne 47 minutes 14 seconds

Hey.

MS

Marsden, Lynsey | She/Hers

47 minutes 24 seconds47:24

Marsden, Lynsey | She/Hers 47 minutes 24 seconds

Just stop sharing a minute and I'll get onto the right tab. Sorry, because I'm going in as a user.

Marsden, Lynsey | She/Hers 47 minutes 36 seconds

Judge.

Marsden, Lynsey | She/Hers 47 minutes 39 seconds

Just done.

Marsden, Lynsey | She/Hers 47 minutes 45 seconds

I'll share my screen once I've done a bit of...

Marsden, Lynsey | She/Hers 47 minutes 49 seconds

Philtre and so that you can see what a judge would say.

BE

Bolton, Eithne

47 minutes 51 seconds47:51

Bolton, Eithne 47 minutes 51 seconds

You could be pokery.

RK

Ramnish Kalsi

47 minutes 53 seconds47:53

Ramnish Kalsi 47 minutes 53 seconds

Yeah.

MS

Marsden, Lynsey | She/Hers

47 minutes 53 seconds47:53

Marsden, Lynsey | She/Hers 47 minutes 53 seconds

Yeah, just so that you can see what...

RK

Ramnish Kalsi

47 minutes 55 seconds47:55

Ramnish Kalsi 47 minutes 55 seconds

Once you've hidden everything you don't want us to see.

MS

Marsden, Lynsey | She/Hers

47 minutes 57 seconds47:57

Marsden, Lynsey | She/Hers 47 minutes 57 seconds

Yeah, so that potential, well, it still mightn't work, but...

BE

Bolton, Eithne

47 minutes 58 seconds47:58

Bolton, Eithne 47 minutes 58 seconds

Okay.

RK

Ramnish Kalsi

47 minutes 59 seconds47:59

Ramnish Kalsi 47 minutes 59 seconds

Yeah.

MS

Marsden, Lynsey | She/Hers

48 minutes 17 seconds48:17

Marsden, Lynsey | She/Hers 48 minutes 17 seconds

Sell.

Marsden, Lynsey | She/Hers 48 minutes 23 seconds

As Sheila mentioned, all of our judicial office holders have got an account created in List Assist, so they all have access to List Assist.

Marsden, Lynsey | She/Hers 48 minutes 35 seconds

This isn't the screen, it wouldn't have this, but basically in the judicial office holders tab you will see

RK

Ramnish Kalsi

48 minutes 42 seconds48:42

Ramnish Kalsi 48 minutes 42 seconds

Sorry, sorry, this, sorry, we're looking at, it is this list assist we're looking at.

MS

Marsden, Lynsey | She/Hers

48 minutes 46 seconds48:46

Marsden, Lynsey | She/Hers 48 minutes 46 seconds

List assist, yep.

Marsden, Lynsey | She/Hers 48 minutes 48 seconds

So I'm pretending I've logged in as a judge and my calendar by default will show me as unavailable every day.

Marsden, Lynsey | She/Hers 49 minutes

OK, because what our judicial officers do, they go in.

Marsden, Lynsey | She/Hers 49 minutes 6 seconds

They will press delete. Are you sure you want to delete your own availability? Yes.

Marsden, Lynsey | She/Hers 49 minutes 14 seconds

By that, Caroline.

Marsden, Lynsey | She/Hers 49 minutes 17 seconds

White there means they are available. So when it comes to us needing to allocate a judge onto a session on the 3rd of June, UAT 100 will show us available in the list. And they would just do that for however many days in the month.

Marsden, Lynsey | She/Hers 49 minutes 37 seconds

In the six month period, really they've got no restriction because they can see their full calendar. They want to record half day availability.

BE

Bolton, Eithne

49 minutes 37 seconds49:37

Bolton, Eithne 49 minutes 37 seconds

I.

RK

Ramnish Kalsi

49 minutes 47 seconds49:47

Ramnish Kalsi 49 minutes 47 seconds

Sorry, and this might be a stupid question. So is there a reason why they appear as unavailable at the start and not just blanks?

MS

Marsden, Lynsey | She/Hers

53 minutes 37 seconds53:37

Marsden, Lynsey | She/Hers 53 minutes 37 seconds

No, that's a different system, but Gaps has its own version of this list and platform. Yep. So again, whilst the JOHs don't access it themselves, admin do. So there is an account, there's an calendar, we know what ticketing people have got, we know that availability, etc. at the primary and secondary venues.

RK

Ramnish Kalsi

53 minutes 38 seconds53:38

Ramnish Kalsi 53 minutes 38 seconds

OK.

MS

Marsden, Lynsey | She/Hers

54 minutes54:00

Marsden, Lynsey | She/Hers 54 minutes

and then that allows us to allocate the members onto the session.

RK

Ramnish Kalsi

54 minutes 2 seconds54:02

Ramnish Kalsi 54 minutes 2 seconds

Okay.

Ramnish Kalsi 54 minutes 6 seconds

And this 100 UAT that you mentioned there, that is a location code for Cardiff or similar.

MS

Marsden, Lynsey | She/Hers

54 minutes 12 seconds54:12

Marsden, Lynsey | She/Hers 54 minutes 12 seconds

No, that's the name of a person. That's just a test name we'd give someone.

RK

Ramnish Kalsi

54 minutes 18 seconds54:18

Ramnish Kalsi 54 minutes 18 seconds

Okay.

Ramnish Kalsi 54 minutes 19 seconds

So that's the judge we're talking about, judicial office holder we're talking about here, okay?

MS

Marsden, Lynsey | She/Hers

54 minutes 20 seconds54:20

Marsden, Lynsey | She/Hers 54 minutes 20 seconds

O.

Marsden, Lynsey | She/Hers 54 minutes 21 seconds

Yeah.

Marsden, Lynsey | She/Hers 54 minutes 23 seconds

Yeah.

Marsden, Lynsey | She/Hers 54 minutes 24 seconds

And I was just going to quickly show you, maybe self unavailable there, but in SSCS we obviously have AM and PM sessions, so the user can then make themselves unavailable AM.

Marsden, Lynsey | She/Hers 54 minutes 39 seconds

So if it's fully blank, you're available all day. If you've got your purple box, you're unavailable all day, and then you can make yourself just unavailable AM or PM. But based upon that, that will allow us to

Marsden, Lynsey | She/Hers 54 minutes 56 seconds

to actually allocate them in the future onto sessions.

RK

Ramnish Kalsi

55 minutes 1 second55:01

Ramnish Kalsi 55 minutes 1 second

And if this were a salary judge, it would not show unavailable. It would just show blank available. Yeah.

MS

Marsden, Lynsey | She/Hers

55 minutes 5 seconds55:05

Marsden, Lynsey | She/Hers 55 minutes 5 seconds

show blank and then they, on the days they don't sit, you know, I'm going on holiday or something, they would do the reverse and create unavailability. And then they can select things like annual leave or, you know, I'm on a conference and this will display in their calendar.

RK

Ramnish Kalsi

55 minutes 15 seconds55:15

Ramnish Kalsi 55 minutes 15 seconds

Yeah.

Ramnish Kalsi 55 minutes 26 seconds

Yeah.

Fusa, Olga

55 minutes 27 seconds55:27

Fusa, Olga 55 minutes 27 seconds

So if they make themselves unavailable or they're going on annual leave, who does receive this information and process it?

MS

Marsden, Lynsey | She/Hers

55 minutes 35 seconds55:35

Marsden, Lynsey | She/Hers 55 minutes 35 seconds

the allocations. Well, we don't process it. What happens is we accept, you know, it's on there and then when we come to allocate the sessions,

Fusa, Olga

55 minutes 36 seconds55:36

Fusa, Olga 55 minutes 36 seconds

The location.

MS

Marsden, Lynsey | She/Hers

55 minutes 47 seconds55:47

Marsden, Lynsey | She/Hers 55 minutes 47 seconds

this availability is taken into account. So when we run auto allocate, if you're on a, it will only allocate you on two days that you're available and then we have like, you know, we order our salary judiciary first, we go in with fee paid.

Marsden, Lynsey | She/Hers 56 minutes 7 seconds

Blah, blah, blah, and then it just reads it all in the background for us.

Fusa, Olga

56 minutes 13 seconds56:13

Fusa, Olga 56 minutes 13 seconds

So as a result of that, how do we know if, let's say, a salad or a fee pay judge is hitting the targets? What does give that reassurance or what controls are in place, do you know?

Marsden, Lynsey | She/Hers

56 minutes 24 seconds56:24

Marsden, Lynsey | She/Hers 56 minutes 24 seconds

Well, we do, we are before we release any core sessions, there's always a cheque of avail of citizens, so we have to monitor fair and equal distribution of our citizens. But there is, when we say a report,

Marsden, Lynsey | She/Hers 56 minutes 43 seconds

This is a report we got put in after.

Marsden, Lynsey | She/Hers 56 minutes 50 seconds

I don't know if it's this one. It is a report.

Marsden, Lynsey | She/Hers 56 minutes 59 seconds

That is in the, let me see if it's called.

Marsden, Lynsey | She/Hers 57 minutes 4 seconds

Waitlist.

Marsden, Lynsey | She/Hers 57 minutes 6 seconds

or it might be in this site. It's definitely in production. We can see a rolling count of somebody sittings per financial year.

Marsden, Lynsey | She/Hers 57 minutes 19 seconds

In.

Marsden, Lynsey | She/Hers 57 minutes 22 seconds

And that will only be because for auto allocate, you have to sort of have, when I say restrictions in, not restrictions, but you know, you're saying it's got to be within a financial year, the count, we don't want it constantly allocating to our highest sitters and all of that. So

Cleary, Sheila | She/Hers

57 minutes 38 seconds57:38

Cleary, Sheila | She/Hers 57 minutes 38 seconds

Rule, Sisnick.

MS

Marsden, Lynsey | She/Hers

57 minutes 43 seconds57:43

Marsden, Lynsey | She/Hers 57 minutes 43 seconds

They are JOH allocations for a specific financial year, it's called. So we can get this one. See there, you've got your year breakdowns.

Fusa, Olga

58 minutes 8 seconds58:08

Fusa, Olga 58 minutes 8 seconds

Sorry, I need to leave because I have a call at 3 o'clock, but definitely it's sitting. So, Lisa, those produce some type of reporting, but not covering all the types of reporting that you would need.

MS

Marsden, Lynsey | She/Hers

58 minutes 10 seconds58:10

Marsden, Lynsey | She/Hers 58 minutes 10 seconds

Yeah.

Marsden, Lynsey | She/Hers 58 minutes 18 seconds

No, yeah.

Marsden, Lynsey | She/Hers 58 minutes 21 seconds

What we always say, list assist is very, when we use the word report in list assist, use a very.

Marsden, Lynsey | She/Hers 58 minutes 30 seconds

very briefly, so to speak. I would more say it's more like a query than a report. It will present you with a list.

Marsden, Lynsey | She/Hers 58 minutes 39 seconds

that you can then philtre and etc, etc. Whereas in gaps, as Sheila explained earlier, we're much more used to reports that can show you breakdowns of periods, percentages, blah, blah, blah. So yeah, I'd always say list assist reports are more like a query.

Marsden, Lynsey | She/Hers 59 minutes 1 second

And it's just going to produce your list.

RK

Ramnish Kalsi

59 minutes 4 seconds59:04

Ramnish Kalsi 59 minutes 4 seconds

So do you also manage things like the number of maximum number of sitting days in that system?

MS

Marsden, Lynsey | She/Hers

59 minutes 10 seconds59:10

Marsden, Lynsey | She/Hers 59 minutes 10 seconds

Yes, you can do, yep.

RK

Ramnish Kalsi

59 minutes 12 seconds59:12

Ramnish Kalsi 59 minutes 12 seconds

So, you do have you have screens for that, so I think we'll have to maybe pick this set up another call to go over in a little bit more detail, but you know this has been extremely helpful as a, you know, as a starting point. So, do you have like any maybe documentation? So, this is list assist that you were using right today.

MS

Marsden, Lynsey | She/Hers

59 minutes 29 seconds59:29

Marsden, Lynsey | She/Hers 59 minutes 29 seconds

Yep.

RK

Ramnish Kalsi

59 minutes 30 seconds59:30

Ramnish Kalsi 59 minutes 30 seconds

Yeah.

Ramnish Kalsi 59 minutes 31 seconds

So I'll cheque with Olga and maybe cheque some of your time maybe for another call, but it's a good start. I'll try to find out other information as well on, you know, what's happening with other programmes and who's doing what so we don't duplicate things.

Ramnish Kalsi 59 minutes 49 seconds

All right, thanks. Thanks a lot for your time today.

RK

Ramnish Kalsi

59 minutes 52 seconds59:52

Ramnish Kalsi 59 minutes 52 seconds

See you soon. Bye.

MS

Marsden, Lynsey | She/Hers

59 minutes 52 seconds59:52

Marsden, Lynsey | She/Hers 59 minutes 52 seconds

Bye.

Sheikh, Abdul

59 minutes 52 seconds59:52

Sheikh, Abdul 59 minutes 52 seconds

**** you guys.

Cleary, Sheila | She/Hers

59 minutes 53 seconds59:53

Cleary, Sheila | She/Hers 59 minutes 53 seconds

No.

Sheikh, Abdul

59 minutes 54 seconds59:54

Sheikh, Abdul 59 minutes 54 seconds

Thank you, bye now.

??

Sheikh, Abdul
